

RENCO OnLine UPS :Ramasis Energy are the leading manufacturers, suppliers and exporters of the Online UPS. It is the best product which is mostly used Data centers, Computer room, ISP, Telecommunication, Finance, Security, transport, Taxation, Health care system etc. It gives protection against data loss due to power-cuts. The Online UPS price range varies with the product range which starts from 600VA UPS to 10KVA Online UPS. It is the best product to provide safety for computers from data loss and data corruption.

RENCO is the third generation of three phase high frequency on-line double-conversion modular UPS. Its single unit is extendable to 600 KVA, system capacity can be expanded to 2.4 MVA constructed by each power module 50 KVA. All internal modules (Power module, bypass module and control module) are modularly designed and hot-swappable.

Key Specifications/Special Features:

- Three-phase in, single phase out
- Double conversion on line technology with transformer
- Double CPU control
- Static bypass
- Manual maintenance bypass
- LCD with control panel
- Wide input voltage range
- Optimization of High-Performance Battery
- Comprehensive and reliable protection
- Strong Redundancy/parallel ability
- Low-noise
- High reliability Design
- High reliability Design during operation
- User –Friendly Network Management
